HABEAS CORPUS FOR

Judge Issues Writ to N. C. Dougherty, Charged With Defalcation in 140 Indictments-Date of Hearing Is Not Fixed.

Peoria, Ill., Oct. 28.—Judge Worthington, sitting in chambers, to-day granted a writ of habeas corpus for Newton C. Dougherty, confined in the county just for alleged defalcation of school funda, but refused to fix the date for the hearing. The court in issuing the writ stated that it was necessary that the members of the Finance Committee of the School Board be notified of every step of the proceedings, and that the State Attorney slould receive ample time to go through the petition, which covers many pages of typewritten matter.

He denied the petition of Messra. F. J. Quinn and J. A. Well, attorneys for Dougherty, to hear the petition to-day or to-morrow.

ASK SMALLER BAIL.

ASK SMALLER BAIL The petition was brought for the pur-pose of reducing the ball in which Dough-erty is now held and which aggregates \$101,000.

\$101,009.

The petition avers that sixty-three out of a total of 140 indictments returned against the defendant have been discovered to be practically duplicates of others. This number the petitioner asks to have stricken from the list.

The petition also declares that it is impossible for Dougherty to give the ball demanded, which it is declared, is out of all proportion to the amount alleged to have been embezzied, and asks to have the amount fixed at \$25,000 or \$50,000, which the defendant believes that he can furnish

SURRENDERED SECURITIES. SURRENDERED SECURITIES.

In his petition Dougherty avers that he has voluntarily turned over to O. J. Bailey, chairman of the Finance Committee of the School Board, accurities valued at approximately \$200,000.

Of this amount, however, \$124,750 is deposited with the First Trust and Savings Bank of Chicago, to secure a loan of \$300,000, negotiated by a local manufacturing concern in which Dougherty is heavily interested.

He declares that, while he was acting

interested.

He declares that, while he was acting as Superintendent of Schools, and secretary of the board, that he had large private interests, which demanded and received much of his time, and that at different times he advanced to the creditors of the School Board and its employee various large sums of money, for which he gave his personal check.

In return for this he would take school scrip and orders on the school treasurer with which he would reimburse himself for the advances thus made.

SAYS ACCOUNTS CONFUSED. The petition declares that, if there are any alleged shortages, it will be discov-ered that they have arisen from a "con-

ered that they have arisen from a "confusion of accounts."

It further declares that, if he is confined longer in jail, that his private interests will suffer to the extent of at least \$150,000; that one bank at least in which he was interested has been forced to close its doors; that threats have been made to force him into bankruptcy, in which case the securities which he has deposited with the School Board to cover any alleged shortage will seriously depreciate in value and thus cause a probable loss to the School Board, and, lastly, that his liberty is necessary to the preparation of the defense of the charges made aganst him.
